Nurture Nelly
Wall-Mounted Infant Resuscitation Cabinet

www.waltersmedical.co.uk

Introducing the **Nurture Nelly** Wall-Mounted Infant Resuscitation Cabinet.

A purpose built baby station that provides a safe, easily accessible platform for the immediate assessment, care and treatment of newborns.

Key Features

- **Space-Efficient Design**
  Wall-mounted to maximise valuable floor space, making it ideal for even the most compact delivery rooms.

- **Accessible When Needed**
  Easily accessible within the delivery environment, supporting a smooth and efficient workflow when every moment matters.

- **Versatile Functionality**
  Provides a dedicated surface for patient warming, resuscitation and post-birth checks, offering a comfortable and secure environment for essential newborn care.

Manufactured in the UK

CAT NO. WMNBWU-001

Resuscitation Cabinet

PRODUCTS SOLD SEPARATELY

NEO-I

The NEO-I is an infant T-piece resuscitator offering a precise and controllable Peak Inspiratory Pressure (PIP) and Positive End Expiratory Presssure (PEEP).

This manually operated, pneumatically driven resuscitator safely improves lung volume and helps establish Functional Residual Capacity (FRC) in infants weighing up to 10kg.

Suitable for use in Neonatal Units, Delivery Suite, during transportation, and across other clinical settings.

CAT NO. NEO-I

The NEO-I can be free-standing on a shelf, mounted to an IV pole, or mounted on a medical rail

CAT NO. AT61575

Atom Wall-Mounted Sunflower Warmer

ATOM | Sunflower Warmer

The Atom Wall-Mounted Sunflower Warmer supports neonatal thermoregulation during newborn care. The integrated Apgar and CPR timer provides audible prompts for timely assessment and monitoring.

We're here to help...

Caring for newborns is at the heart of everything we do.

Are you aware we offer a range of neonatal consumables to help deliver the highest standard of care? Contact us for samples or more information.

Available via **NHS Supply Chain**
